ORGANIZATION EXPERIENCE

BNEC (Bina Nusantara English Club)

Period 2015-2017

Position: Branding Staff, Debate member

Skills: Photography, Illustrating and designing, managing events as a member, debating.

Notes:

I learnt a lot of social and designing skills as a member. Here I also learnt to socialize with people outside of the country in events that were held by BNEC. I also learnt of a n elder member who I learnt to debate with as a part of the debating team.

BSSC (Binus Square Student Commitee)

Period: 2015-2017

Position: Branding Staff, Senior Staff

Skills: Gathering information and materials, illustrating and designing, leading as senior staff, managing events.

Notes:

Similarly to the previous org, I learnt much about social and designing skills, as well as leading as a senior staff member.

INTERNSHIP EXPERIENCE

PT Erajaya Swasembada TBK

Period: 2018-2019

Position: Intern

Skills: Software developing, problem solving, communication, decision making, Javascript based.

Notes:

This was my first real taste of what a working environment felt like. It was a learning experience where I first learnt of the work ethics needed to show your worth. I had a helpful mentor who I keep in touch with who helped me learn about the skillsets that I lacked being a student, like communication skills as well discerning how to solve problems. It was also here that I elevated my skills in javascript to encompass the most efficient way to clear my work.

WORKING EXPERIENCE

BPR Intidana

Period: 2019-2020

Position: IT Staff

Skills: Software developing, problem solving, support, web management, PHP (Laravel based).

Notes:

First real work, I learnt to manage a PHP based web that was used for the company.

PT Erajaya Swasembada TBK

Period: 2021-current

Position: Back-End Developer

Skills: Go (Programming Language), Pubsub, Redis, Elasticsearch, Scalyr, Open telemetry, Sonarqube, Message Brokering, PostGreSQL, MySQL, GCP, Wowrack.

Notes:

Despite my roots as more of a front-end developer, here I learnt to code as a backend engineer. I was in charge of the ERP and Promo services, which is one of the many microservices used to maintain the flow of apps used by Erajaya. I learnt to code using the Go programming language which I learnt was very diverse and versatile. I also learnt to better log my codes as to help when debugging the source of bugs or problems using platforms like open telemetry, scalyr, and sonarqube. The databases used were mainly MySQL and PostGre based, which elevated my knowledge of them both. I also learnt to cache using redis to make the codes that require data more efficient, this is similar for elastic search that uses indexing to make a code be less strenuous.
